Christian Bale once again embodies the man behind the mask in **The Dark Knight**. The film reunites Bale with director Christopher Nolan and takes Batman across the world in his quest to fight a growing criminal threat. With the help of Lieutenant Jim Gordon (Gary Oldman) and District Attorney Harvey Dent (Aaron Eckhart), Batman has been making headway against local crime — until a rising criminal mastermind known as The Joker (Heath Ledger in his Oscar-winning performance) unleashes a fresh reign of chaos across Gotham City. To stop this devious new menace — Batman's most personal and vicious enemy yet — he will have to use every high-tech weapon in his arsenal and confront everything he believes.
